Councilperson: Bernie Anderson

Item 6H: Change Order to the Professional Services Agreement with Clark Dietz for the Locust/Colton Phase 1 Sewer Separation and Water Main Replacement Design

Question/Comment: I know it's more economical to expand projects to avoid redundancy. In order to predict a realistic budget, we need to look at ways to predict based on past history. What concerns me is a bid ends up being larger than the anticipated and the total at the end of the year is a large dollar amount.
