RE: 2016 Uniform Crime Reports for the City of Bloomington, Part 1 and Part 2 Index Offenses and All Other Reports.

As the Bloomington Police Department makes police reports each offense is assigned a unique numeric code. This code is used to determine the severity of an incident regardless of the number of offenses that may have occurred in the incident. The lower the offense code the more severe the offense, which is referred to as the Hierarchy Rule. Counts in this report will be different than counts seen in the report titled "2016 Crime Story" due to application of the Hierarchy Rule.

The Federal Bureau of Investigation has designated certain offenses as Part 1 Index Offenses. These offenses are generally standardized across the country and are used in annual statistical reports. This report will list all reports taken by the Bloomington Police for 2015 and 2016 with the hierarchy rule applied. Offenses are grouped into broad categories with offenses used for Part 1 Index crimes highlighted yellow.
