Subsidiary Buildings: __________________________

Condition: (See definition on reverse)

Excellent ___; Good __; Deteriorated ___.

Describe major physical changes from original construction:

Potential National Register:

a. Individually (yes/no) NO
b. As a part of a district (yes/no) NO

c. Explain rationale for potential designation - specify criteria A, B, C, D, or combination of any.

Comments: Is the building common, special or unique (one-of-a-kind) in any regard and specify feature(s) and/or historical associations.

Surveyor: WILLIAM OLIVENS
Date: 8-24-90
DEFINITIONS FOR CONDITION:

EXCELLENT - All original architectural details are apparently intact and major elements (foundations, walls, windows and roof) are in repair.

GOOD - Almost all of the elements characterizing "EXCELLENT" but missing some original details and requiring some work but not stabilization.

DETERIORATED - All or some major elements (foundations, walls, windows and roof) require replacement. Original architectural details may or may not still be present.

CRITERIA FOR EVALUATION OF NATIONAL REGISTER POTENTIAL:

The quality of significance in American history, architecture, archeology, engineering and culture is present in districts, sites, buildings, structures and objects that possess integrity of location, setting, design, materials, workmanship, feeling and association:

A. that are associated with events that have made a significant contribution to the broad patterns of our history; or

B. that are associated with the lives of persons significant in our past; or

C. that embody the distinctive characteristics of a type, period or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or

D. that have yielded, or may be likely to yield, information important in prehistory or history.

c. Explain rationale for potential designation - specify criteria A, B, C, D, or combination of any.

Comments: Is the building common, special or unique (one-of-a-kind) in any regard and specify feature(s) and/or historical associations.

COMMON BUT COULD BE CONTRIBUTING WITH SOME RESTORATION WORK ON PORCH & FRONT ENTRY

Surveyor: WILLIAM GIVENS
Date: 07-13-90
DEFINITIONS FOR CONDITION:

EXEMPLARY - All original architectural details are apparently intact and major elements (foundations, walls, windows and roof) are in repair.

GOOD - Almost all of the elements characterizing "EXEMPLARY" but missing some original details and requiring some work but not stabilization.

DETERIORATED - All or some major elements (foundations, walls, windows and roof) require replacement. Original architectural details may or may not still be present.

CRITERIA FOR EVALUATION OF NATIONAL REGISTER POTENTIAL:

The quality of significance in American history, architecture, archeology, engineering and culture is present in districts, sites, buildings, structures and objects that possess integrity of location, setting, design, materials, workmanship, feeling and association:

A. that are associated with events that have made a significant contribution to the broad patterns of our history; or

B. that are associated with the lives of persons significant in our past; or

C. that embody the distinctive characteristics of a type, period or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or

D. that have yielded, or may be likely to yield, information important in prehistory or history.

Describe major physical changes from original construction:

Potential National Register:

a. Individually (yes/no) NO
b. As a part of a district (yes/no) NO
c. Explain rationale for potential designation - specify criteria A, B, C, D, or combination of any.

Comments: Is the building common, special or unique (one-of-a-kind) in any regard and specify feature(s) and/or historical associations.

Surveyor: WILLIAM GIBSON
Date: 8-30-90
DEFINITIONS FOR CONDITION:

EXCELLENT - All original architectural details are apparently intact and major elements (foundations, walls, windows and roof) are in repair.

GOOD - Almost all of the elements characterizing "EXCELLENT" but missing some original details and requiring some work but not stabilization.

DETERIORATED - All or some major elements (foundations, walls, windows and roof) require replacement. Original architectural details may or may not still be present.

CRITERIA FOR EVALUATION OF NATIONAL REGISTER POTENTIAL:

The quality of significance in American history, architecture, archeology, engineering and culture is present in districts, sites, buildings, structures and objects that possess integrity of location, setting, design, materials, workmanship, feeling and association:

A. that are associated with events that have made a significant contribution to the broad patterns of our history; or

B. that are associated with the lives of persons significant in our past; or

C. that embody the distinctive characteristics of a type, period or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or

D. that have yielded, or may be likely to yield, information important in prehistory or history.
